Sequence Rules Compliance

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 (d), as follows:

"Where the description or claims of a patent application discuss a sequence that is set forth in the Sequence Listing in accordance with paragraph (c) of this section, reference must be made to the sequence by use of the sequence identifier, preceded by SEQ ID NO: in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application."

The Sequence Listing properly lists sequences identified by SEQ ID NO's; however, the sequences disclosed in the specification and recited in the claims are not identified by SEQ ID NO's corresponding to those of the Sequence Listing. For example, Appendices A and B disclose nucleic acid and amino acids sequences not identified by SEQ ID NO's.

Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

Applicant is given ONE MONTH from the mailing date of this communication within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to

Art Unit: 1631

comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
